

MAKING THE MOST OF MYCHART: LOGGING IN

MyChart is a secure internet website that lets you see and manage your medical records and health care.

Overview

With MyChart, you can:

- See your test results and upcoming appointments
- Connect with your doctor, and make or change appointments
- See and pay your medical bills
- Refill your medication

This guide shows you how to log in to MyChart and use its many features.

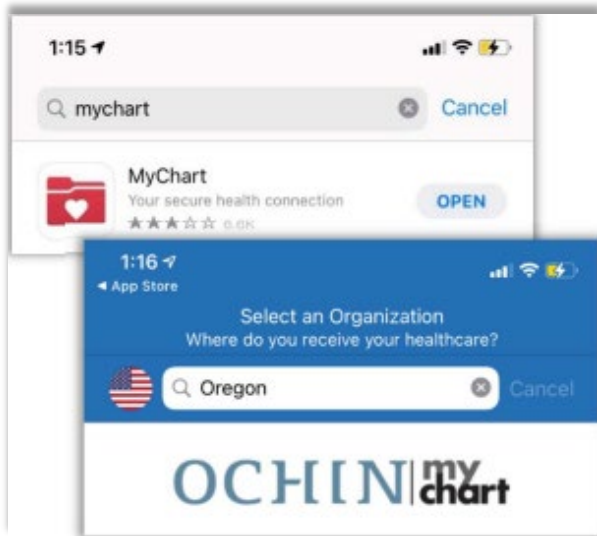

Need help signing up for MyChart?

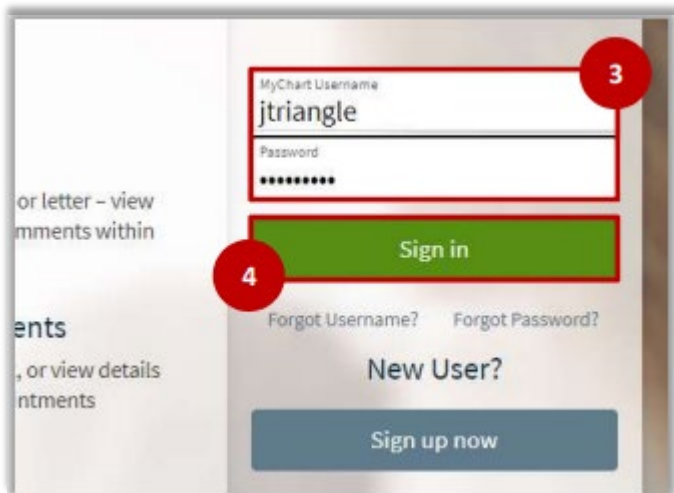

Logging In

Once you have signed up, this is how you can log in to MyChart:

1. From a computer, go to **mychart.ochin.org**
2. From an Apple or Android phone, download the **MyChart app** from your App Store or Google Play; then select “OCHIN” as the organization.

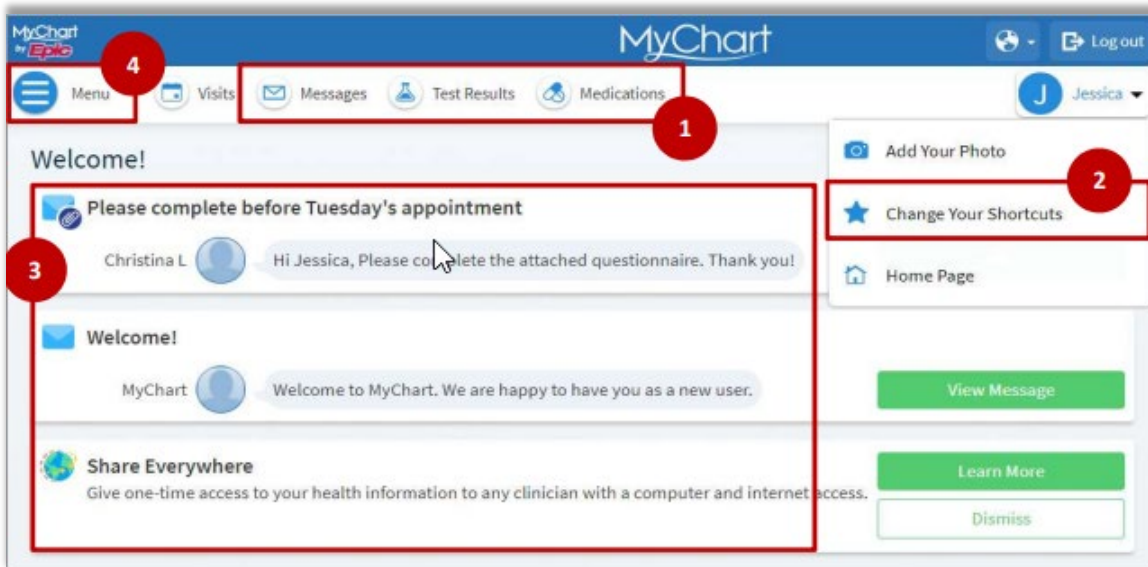

3. Enter your **Username** and **Password**.
4. Click **Sign In**.

Understanding Your Home Page

When you first log in to MyChart, you will land on your home page.

1. At the top of the page are links to open your messages, test results, and list of medicines.
2. Below your name in the top-right corner are links to add photos and change your shortcuts. Above your name is the link to logout.
3. Shortcuts are recent messages and important information for you and any family member(s) you care for (such as reminders about an upcoming appointment).
4. Click on the **Menu** link to look for other actions you can take.
